NKPsych Search Optimization Review

This is a staged review package, not a live launch. The goal is to recover lost conversion rate by cleaning search terms and tightening Chicago targeting around verified demand.

Search term clicks	Search term cost	Search term conversions	Paused additions
76	**$1,001.38**	**7.00**	**5**

The attached location report only shows Chicago, Illinois, United States for April 3, 2026 to May 2, 2026. It recorded 115 clicks, 2,677 impressions, $1,501.06 cost, 13.00 conversions, 11.30% conversion rate, and $115.47 cost per conversion.
The highest historical conversion rate supplied for context was 20 percent. The attached search-term export currently shows 7.00 conversions from 76 clicks, which supports cleanup before scaling budget.
These terms have conversion signal or clear fit and were staged as paused phrase keyword additions only when not already present in the current phrase keyword set.
